

BROMIC[®]
HEATING

**SUPERIOR DESIGN.
SUPERIOR HEAT.**

Divided into our distinct Eclipse, Platinum and Tungsten series, Bromic offers a heating solution for any space with options for electric, gas and portable outdoor heating. All Bromic outdoor heaters are designed and engineered in-house and are constructed from premium materials to create products that strike the perfect balance between performance, reliability and beauty.

ECLIPSE SERIES

PLATINUM SERIES

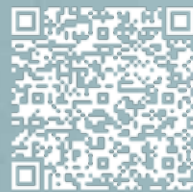

TUNGSTEN SERIES

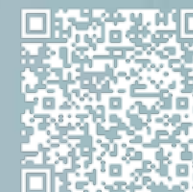

ECLIPSE SMART-HEAT™ ELECTRIC

Dim the lights and turn up the heat with our Eclipse Smart-Heat™ Electric heater. Equipped with 3 different heat outputs up to 2900W and a dimmable LED light railing, you're in complete control of your ambiance and comfort. Available in six unique mounting options, the Eclipse Smart-Heat™ series adds style, warmth and light to design-focused outdoor spaces.

ECLIPSE SMART-HEAT™ ELECTRIC PORTABLE

This Eclipse Smart-Heat™ Portable provides the ideal solution for flexible heating needs. With its minimalist yet striking portable design, enjoy heat and dimmable LED light wherever it's required. The Eclipse Smart-Heat™ Portable includes our Eclipse Dimmer Controller and wireless remote, so you can quickly adjust both the heat output and gradually dim the lights to achieve the right level of comfort for any situation.

PLATINUM SMART-HEAT™ ELECTRIC

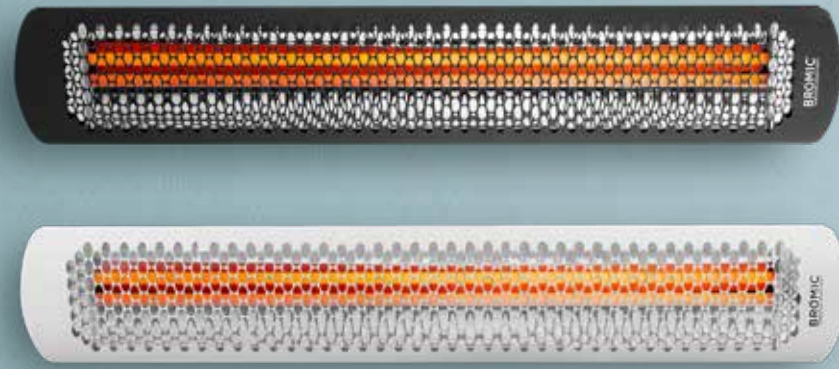

With its ultra-slim, high-quality 304 stainless steel frame and sleek ceramic-glass surface, the Platinum Smart-Heat™ Electric virtually disappears into its surroundings while delivering market-leading radiant heat. Available in both black and white and three heat output options (2300W, 3400W and 4500W), this premium heater was specifically designed for low-clearance installations and modern aesthetics. Specifically engineered to provide superior resistance to corrosive elements, the Platinum Smart-Heat™ Electric Marine is composed of 316 marine grade stainless steel, making it suitable for coastal and marine environments.

PLATINUM SMART-HEAT™ GAS

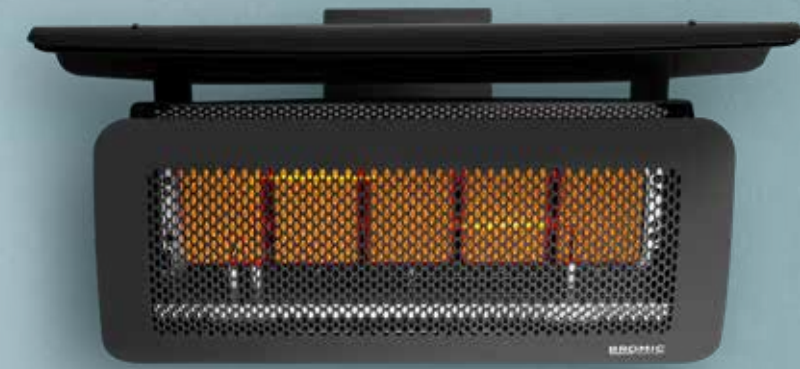

Add style and warmth to your patio with Bromic's Platinum Gas range. This powerful heater combines elegant design with industry-leading technology. With its signature ceramic-glass surface in a sleek black finish, the Bromic Platinum Gas will not only look great on your wall or ceiling, but will also quickly project radiant heat deep into your outdoor area (up to 215ft²) while adding an extra layer of comfort with its soft red glow.

TUNGSTEN SMART-HEAT™ ELECTRIC

Combining stylish, industrial design with market-leading radiant heat technology, each Tungsten Electric heater provides an even flow of warmth to outdoor spaces of up to 160ft². Tailored outdoor heating has never been easier, with four models ranging from 2000W to 6000W, dimmable and dual element control options, and the choice of wall, ceiling, or recessed mounting applications.

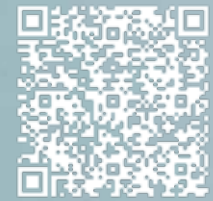

TUNGSTEN SMART-HEAT™ GAS

Our Tungsten Smart-Heat™ Gas heater can quickly heat up outdoor areas of up to 215ft², providing a comfortable, warming red glow all year-round. With its stylish matte black design and exceptional wind resistance of up to 8mph, this heater will keep spaces warm at any time of the year. Choose between 26,000 BTU and 43,000 BTU heating power and natural gas or propane (LPG) options.

TUNGSTEN SMART-HEAT™ PORTABLE

Up to 3 times more efficient than traditional Mushroom heaters, the Bronic Tungsten Portable Gas heater has got you covered. With its award-winning matte black finish, it's a piece of modern art and a high-performance radiant heater in one, creating comfortable warm environments in areas of up to 215ft². This highly-efficient patio heater easily overcomes winds of up to 8mph and wastes little to no energy thanks to its use of directional heat, making sure the heat ends up only where it's needed.

BROMIC CONTROLS

Bronic's control options make the operation of your outdoor heater even more convenient. Choose from simple On/Off remotes to dimmer controls to fully integrated smart home solutions.

ON/OFF CONTROLLER

The 'On/Off' controller lets you control up to two electric or four gas heaters across two separate circuits up to 100ft away. The wireless remote can be hand held or easily mounted.

ECLIPSE DIMMER CONTROLLER

Suitable for our Eclipse Pendant and Portable series, the Eclipse Dimmer controller can quickly dim the lighting in 1% increments and manage heat output using three presets (33/66/100%) to create the perfect ambiance.

DIMMER CONTROLLER

Suitable for our electric heaters, the dimmer controller provides the ability to adjust heat output in 1% increments, or quickly jump by 25% increments, from up to 100ft away.

MASTER REMOTE

Invaluable for larger venues, the Master Remote offers full control over an unlimited number of heaters in up to 6 groups within a 100ft range. Compatible with our Dimmer Controller.

SMART-HEAT™ LINK

Pair Bronic's control options with the Smart-Heat Link to create a seamless communication between your outdoor heaters and smart home controls technology. The Bronic Smart-Heat Link requires a RS232 port and is compatible with leading home automation systems, such as Control 4, Crestron, Lutron, Nomad and many more!

BROMIC MOUNTING SOLUTIONS

Bromic heaters are available in a variety of mounting options, ensuring the ideal heating solution for your space.

CEILING MOUNT

Bromic's ceiling mounting poles ensure that your Platinum, Tungsten, and Eclipse heaters will be suspended at just the right height to deliver the optimum amount of heat.

- **Platinum & Tungsten Gas:** Mounting options ranging from 9.69" to 41.18"
- **Platinum Electric:** Complimentary 8" and also available in 2' & 4' options
- **Tungsten Electric:** Complimentary 6.5" pole for the 2000W & 3000W models, and 9.5" pole for the 4000W and 6000W models. Also available with 3' mounting tube suspension
- **Eclipse Electric:** Complimentary 24" twin pole and also available with 8" straight, 24" straight & curved, and 48" straight poles

WALL-MOUNT

Easily mount any of our gas or electric heaters on walls and structures while meeting the necessary clearance requirements. Standard wall mounts are included with our Platinum and Tungsten Gas and Electric heaters.

- **Platinum & Tungsten Gas:** Complimentary wall mount & control housing
- **Platinum Electric:** Complimentary 8" bracket with a 30 degree rotation angle
- **Tungsten Electric:** Complimentary 6.5" pole for the 2000W & 3000W models, and 9.5" pole for the 4000W and 6000W models with 30-45 degree rotation angle varying by model
- **Eclipse Electric:** Curved wall mount pole

FLUSH-MOUNT

Seamlessly integrate the Platinum Electric, Platinum Marine, or Tungsten Electric heater within your project with our premium recess kits. Create a flush, modern and minimalist look without interfering with the aesthetic of the space.

- **Tungsten Electric:** Available for all Tungsten models with 21.1" cavity clearance required
- **Platinum Electric:**
 - **Standard Recess Kit:** Available for all Platinum Electric models with a minimum 10" cavity clearance required, varying by model
 - **Low Clearance Recess Kit:** Available for 2300W and 3400W Platinum Electric models with 7.1" cavity clearance required

PORTABLE

Bromic's portable heaters bring flexible warmth to outdoor spaces. Our Tungsten and Eclipse portable heaters offer top-of-the-line heating technology in a stylish, free standing design.

- **Tungsten Portable:** Flexible placement in either Propane or Natural Gas fuel source
- **Eclipse Portable:** Flexible placement electric heater with included 6' 240V plug

DESIGN SERVICE

As part of our complimentary service, Bromic Heating Specialists will custom design and tailor a solution to best heat your outdoor living and entertainment spaces.
