

BOULEVARD 36-INCH & 48-INCH  
Linear Vent-Free Fireplaces

*Boulevard*

36-inch Boulevard Fireplace with Black Porcelain Liner and 1-1/2-inch Beveled Front in Matte Black

**Beautiful, elegant, and efficient . . . your Boulevard fireplace will add value, ambiance, and warmth to your home.** Choose the Boulevard 36 single-sided (28,000 BTUs), Boulevard 48 single-sided (32,000 BTUs), or Boulevard 48 see-through (36,000 BTUs). All systems are available in Propane and Natural Gas.

## OPTIONS ABOUND

Accessorize your Boulevard Fireplace with a reflective Black Porcelain liner (all models) or White Porcelain liner (single-sided models only) to create the illusion of unimaginable depth; or, opt for the stainless steel liner (single-sided models only) for a brighter contemporary feel (shown on front cover).

Choose a decorative 1½-inch beveled front in matte black, a simple black ¾-inch frame, or have your contractor install tile, stone or plaster right to the fireplace opening— the ultimate in design flexibility.

The Boulevard 48 See-Through can be installed between two interior rooms. See manual for specific framing requirements.

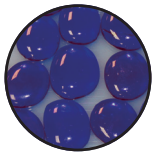

Accessorize your Boulevard by choosing from a variety of decorative glass media or accent pebbles. Create a beachfront cottage look with the Driftwood log set – perfectly proportioned to the Boulevard’s lines – plus an assortment of stones. The logs and stones are molded from ceramic fiber and hand painted for rich detail. A fine mesh barrier screen comes standard with each model.

The Boulevard’s Intermittent Pilot system eliminates the standing pilot – saving energy and your money. In the event of a power outage, your Boulevard fireplace can operate on battery backup mode. The Millivolt system operates with a standing pilot and includes an on/off remote control (Millivolt only available on single-sided models).
